Dear Wendy,

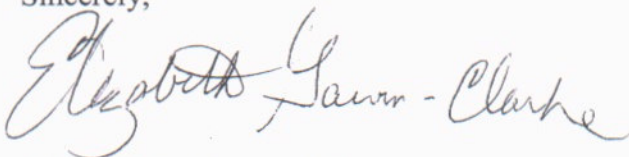

Thank you so much for conducting your "Mastering the Cold Call" workshop for our National Sales Consultants.

Not only was your presentation terrific but we have already begun to see increased success in securing meetings with new prospects. Before the workshop our SC's were hesitant and fearful to use the telephone to develop new business. Now, they are becoming fearless!

You were well researched on ADP and had a very tailored application to our business. We enjoyed the role playing and interactive aspects of the workshop and would like to do more! This workshop, which some participants were reluctant to attend, turned out to be productive, entertaining and fun!

I look forward to partnering with you again!

Sincerely,

Elizabeth Garvin-Clarke
