Dear Wendy:

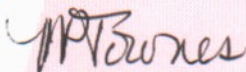

Thank you so much for the two powerful seminars you delivered at the ASI Show in Chicago. *Cold Calling for Women: Opening Doors & Closing Sales* and *Sales & Marketing Strategies: Developing New Business* were both "big hits."

We received wonderful comments from attendees--you conveyed important and interesting information in a clear, specific and empowering manner. We also appreciated your efficiency and professionalism in all of our pre-show planning—it helped!

We are all looking forward to working with you again soon.

Thank you again.

Sincerely,

Natalie Pyatt Townes
