Dear Wendy:

It was a pleasure meeting you at the program you monitored recently.

I really got a lot out of the program. As I mentioned, I had been to another cold calling seminar and left with the feeling of having been ripped off. Your program, in contrast was inspirational. I am passing your name along to a few of my friends that I think would benefit from your knowledge and experience.

You provided me with the motivation to make those calls and not think of myself as an intrusion.

I look forward to working with you and going to more seminars.

I have been making those calls, Wendy. They are reaping results and moving along very smoothly. I cannot thank you enough.

Very Truly Yours,

John P. Barry
President
